

PRODUCT CHARACTERISTICS

1. Complete models and specifications: 1.4 (17G), 1.6 (16G), 1.8 (15G) and 2.1 (14G).
2. High elastic medical grade materials with good elasticity and smooth inner wall.
3. High-quality Japanese imported needles and ultra-thin double-curved sharp tips to reduce tissue damage and pain.
4. Fine and uniform siliconization treatment with good biocompatibility.
5. Ergonomic clamp design for simple and convenient operation.
6. Anti-slip wing design with concave-convex buckle, more in line with clinical use.
7. Safety A.V. fistula needle: Protective caps effectively prevent from being punctured by the needles, avoid blood contamination and protect clinical users.

PRODUCT SPECIFICATION

Ref. No.	Specification		Wing Type	Colour	Packing	Carton Size
	Gauge	mm				
A14R / A14F	14G	2.1	Rotating / Fixed	Purple	50Pcs*10Boxes	60*44.5*28.5cm
A15R / A15F	15G	1.8	Rotating / Fixed	Yellow	50Pcs*10Boxes	60*44.5*28.5cm
A16R / A16F	16G	1.6	Rotating / Fixed	Green	50Pcs*10Boxes	60*44.5*28.5cm
A17R / A17F	17G	1.4	Rotating / Fixed	Orange	50Pcs*10Boxes	60*44.5*28.5cm
